

Programs

Reclink Australia provides and promotes over 10,000 sport, recreation and arts activities involving 95,000 participation opportunities to disadvantaged communities throughout Australia each year.

We work in partnership with various key stakeholders within the community, including our member agencies, to ensure that a diverse range of activities are accessible for Australians experiencing disadvantage.

We aim to provide these opportunities by offering activities which are affordable and accessible each day. Our activities are designed to provide positive health outcomes for people experiencing disadvantage.

Whilst people experiencing disadvantage are accessing these sport, recreation and arts opportunities on a daily basis, our goal is to support individuals to participate in mainstream clubs and associations within the local community.

Should you require further information regarding our sport, recreation and arts program deliverables, please contact the relevant staff member by clicking here.
